...to your imagination.

Cabinetry, Windows, Doors, Architectural Details & Millwork

EverTree Industries of Vermont, Inc. combines ingenuity and years of woodworking skills to provide custom cabinets and complete millwork services for homeowners, architects, contractors and design professionals.

Every order we take is custom and we pride ourselves on the time we spend with each customer.

We will listen to the issues important to you in order to provide a quality product that reflects your preferences and imparts years of usefulness and enjoyment.

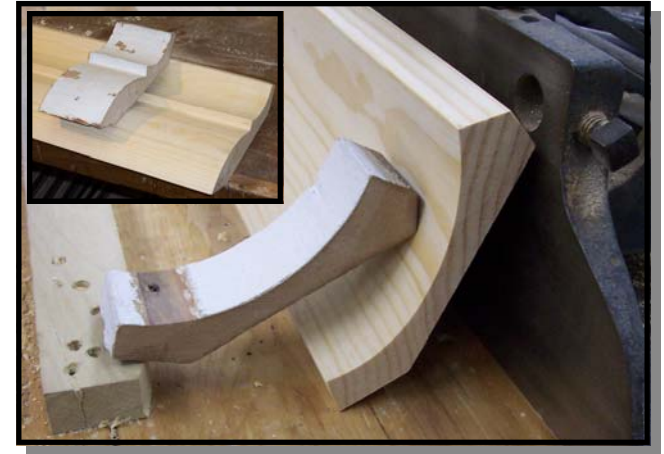

We love a challenge and strive to make every project enjoyable. We are ready to assist you with ideas and suggestions and will always respect your wishes.

Special care is taken with all exterior products to insure maximum protection from the elements. Here back-primed applied mouldings are added.

Unique details crafted to blend into the existing environment.

We have hundreds of knives in stock to match existing historical moulding profiles and the ability to create custom knives to achieve any given design.

Hand drawings and computer assisted design technologies are used to give visual interpretation of each design as needed.
